

APA ACCREDITED INTERNSHIP MATCH RATES BY PROGRAM BETWEEN 2011-2014, AS REPORTED BY APPIC

Based on the data below, we have calculated the following Match rates to APA Accredited Internships as follows:		IMPORTANT NOTE: An important decision when applying to graduate school pertains to the likelihood of obtaining a predoctoral internship in the very competitive internship application process. In the past ten years, approximately 75% of applicants match to internships, and even fewer to APA Accredited internships that soon will be required for licensure in many states. The attached listing is based on data provided by APPIC regarding the number of students who successfully matched to an APA-Accredited internship divided by the total number of students who submitted rankings (i.e., applied) for an internship placement. Because in many programs, so few students apply to internship, small differences in the match rate between programs (i.e., within 10-20%) are likely meaningless. However, this list may prove useful when examining more substantial differences in match rates and considering different possible graduate programs.		
All Programs	Mean % (SD)			
All PhD Accredited	66.58 (30.13)			
All PhD Unaccredited	81.48 (18.24)			
All PsyD Accredited	26.46 (35.55)			
All PsyD Unaccredited	47.33 (23.38)			
	7.58 (11.43)			
Clinical Psychology Doctoral Programs	PhD/PsyD	APA Accredited?	% of Students Matched to APA Accredited Internships (as reported by APPIC) between Academic Years 10-11 to 13-14	Link to Outcome Data
